

Institute Day - February 26, 2010

Audience: Art teachers for all grade levels

Title: **Where the Wild Things Art: Developing Creativity and Expanding Skills**

Description: At its best, creativity is a wild thing that flourishes within structures and techniques. Learning new forms of art can free us to combine ideas and skills creatively, bringing imagination together with real world experience. In this hands-on program, you will have the opportunity to explore new techniques and projects in media including paper, fiber, and sculpture. Participants will leave with projects in hand, instructions, and artistic possibilities that can be adapted to any age level, from elementary grades through high school.

Location: The Fine Line Creative Arts Center
6N158 Crane Road
St. Charles, IL 60175
